## Objective

I am a Front-end developer with a strong work ethic, quick learning ability, and a passion for mastering new technologies. Seeking to join a dynamic team, tackle challenges, and create user-friendly web applications that deliver exceptional user experiences.

## Professional Skills

### Technologies:

- React Js
- Next Js
- TypeScript
- Rest API
- React Router Dom
- Redux
- RTK Query
- React Query
- Mongoose
- Express Js

### Tools:

- VS Code
- Git
- Github
- Npm
- Vercel
- Netlify
- Firebase
- Node Mailer
- Next Auth
- Linux

## Project

→ **Cash-IO:** This application is a powerful tool for tracking and managing financial data. Users can easily record their expenses, earnings, and borrowings, and view them in different categories and time periods. Users can also create multiple wallets to separate their personal and business finances, or to share them with their family and friends. This application helps users to analyze their transactions and make smart decisions for their financial future.

### ◆ Technology Used:

- **Front-End:** Next Js, TailwindCss, RTK-Query, ShadCn-UI, Next Themes, TypeScript, ReCharts.
- **Back-End:** NextJs Api Route Handler, MongoDB, TypeScript
